

REMARKS

This is in response to the Official Action of June 9, 2008. The Applicant has made language amendments to the claims for insuring antecedent basis and for syntax corrections. It is believed the amendments do not change the allowability of the claims.

The Applicant is also including a Terminal Disclaimer and fee to obviate the obviousness type double patenting rejection that was made in relation to U.S. Patent No. 6,453,758. The application is believed to be in condition for allowance.

REQUEST FOR CONSIDERATION OF ADDING AN INVENTOR

On or about September 23, 2005, the Applicant filed papers for adding Nicholas Miller as an inventor. Mr. Miller's addition is believed to be properly documented, and his ownership interest in this application was assigned to MSP Corporation in an assignment recorded at Reel 017022, Frame 0980.

A decision on this request is respectfully requested.

In view of the fact that the Terminal Disclaimer has been filed, favorable action is respectfully requested as well.

The Director is authorized to charge any fee deficiency required by this paper or credit any overpayment to deposit account No. 23-1123.

Respectfully submitted,

WESTMAN, CHAMPLIN & KELLY, P.A.
